# ANNUAL REPORT

—OF THE—

## SCHOOL BOARD.

---

As required by law, the following report is respectfully submitted for the year ending March 1, 1892 :

### SCHOOLS Nos. 1 AND 3.

For five consecutive years these schools have been united, and for the past four years have been in charge of the same teacher—Miss Mary L. Thomas of this town. The spring term of eleven weeks in length, beginning April 20 and ending July 3, was kept, as heretofore, in the schoolhouse at the Center, and the fall term of eleven and three-fifths weeks in length, beginning Sept. 7 and ending Nov. 25, at schoolhouse on the East road. Whole number of scholars attending spring term, eighteen ; fall term, nineteen. Susie E. Rear-don, Grace M. Given, Maud E. Batchelder and Nellie A. Foster are recorded as not being absent or tardy during either term ; and Bessie A. Foster and Chester E. Crowell during the spring term, and Florence B. Given and Lena F. Calef during the fall term.

### SCHOOL No. 2.

The spring session of this school began April 20 and closed July 3, making a term of eleven weeks in length. Whole number of scholars, nine. The fall term was eleven and three-fifths weeks in length, beginning Sept. 8 and ending Nov. 25, and was attended by fourteen pupils. Both spring and fall terms were taught by Miss

Lucinda J. Noyes of this town, who has now had charge of the school for two successive years. Iva Whittaker is reported as not being absent during the spring term, and Flora H. Smith and Gyles W. Merrill during the fall term. Henry T. Batchelder and Arthur H. Batchelder were not absent during either term.

#### SCHOOL No. 4.

Both spring and fall terms of this school were under the instruction of Miss Carrie F. Adams, of Haverhill, Mass. The spring term was ten weeks in length, beginning April 27 and ending July 3. The fall term was nearly twelve weeks in length, beginning August 21 and closing Nov. 20. Whole number of pupils: spring term, nine; fall term, nine. This was Miss Adams' first attempt at teaching. We find on the roll of perfect attendance the name of Bertha Hoitt for the spring term, and that of Emma C. King for the fall term; for both terms, Ralph Freeman, Lizzie Hoitt and Nellie Hoitt.

#### SCHOOL No. 5.

A single term only of this school was held during the past year. It began Sept. 23 and closed Nov. 25, being nine and three-fifths weeks in length. It was taught by Miss Mary L. Noyes of this town, and was her first experience as a teacher. Whole number of scholars, eight. Two, Albert D. Damon and Howard D. Damon, were not absent or tardy during the term.

#### WINTER SCHOOL.

The marked favor with which the winter school of one year ago was regarded by our citizens seemed to warrant the continuance of the same, and accordingly a term of school of eleven weeks in length has been kept during the present winter at the schoolhouse at the Center. As before, it was taught by Miss Mary L. Thomas, and

was not only attended by the pupils residing in the immediate vicinity of the school, but by quite a number from the outlying districts also, and who showed their interest in the school by the regularity of their attendance and their efforts for improvement and advancement in their several studies. Parents and friends also manifested their interest in many ways, more particularly by their frequent visits to the school and their presence at the closing examination, which was attended by the largest number of visitors that we ever met upon such an occasion. Whole number of scholars, twenty-one; average attendance, eighteen. Grace M. Given, Maud E. Batchelder, Bechtel Scott, Henry T. Batchelder and Arthur H. Batchelder were present at every session of the school.

By the foregoing it will be seen that with some unimportant exceptions our schools have been carried on substantially as in previous years—those of our scholars who are of a suitable age and who have the requisite acquirements being allowed to attend the Academy, in accordance with the vote of the town at its last annual meeting, and the remainder at such of our town schools as they could most conveniently attend. And while our schools have been in a general way successful, still in some respects there is room for improvement, not only in the methods of teaching, but in many other particulars. Some teachers have failed a little in regard to order. And while we would not have too much effort in this one direction, as our town schools are now almost wholly composed of the smaller pupils, who ought not, perhaps, to be kept in the same position for a great length of time. Yet a certain degree of order in the school room is very essential to the welfare of a school, and requisite to its success. The school room itself can certainly be kept clean and neat and its furniture arranged in an orderly manner. And the pupils, especially the younger ones, can, by frequent admonitions on the part of the teacher, be led to form habits of order and regularity that will, perhaps, follow them throughout life, and become of inestimable advantage to them in after years.

We are pleased to report an increased interest on the part of our citizens in our schools, and which is indicated by the record of visits made during the past year, the number of which has increased from 205 to 240, a gain of nearly 17 per cent. And this is as it should be. There is no reason why our tax payers, who have been very liberal in voting their money for school purposes, should not have interest enough to see for themselves whether it is spent economically and properly, or not, as well as money raised for the repair of our highways or any other tax.

The following scholars deserve especial mention for not being absent a single half-day during thirty-four weeks of school: Grace M. Given, Maud E. Batchelder, Henry T. Batchelder and Arthur H. Batchelder.

GILMAN GREENOUGH,  
STILLMAN H. GROVER,  
HERBERT N. SAWYER,

*School Board.*
